Tony is an original member of Iron Maiden who then went on to be keyboard player with Cutting Crew in the 80's (I Just Died In Your Arms Tonight)

He's had a very eclectic career in the music business, but for the last 2 and half years, Tony has been touring his one man show, **AWAKE**, around the UK and the rest of the world.

From August to December 2024, he performed across Australia, New Zealand, Japan and both North and South America, opening for Steve Harris and British Lion as they "piggy backed" the Iron Maiden world tour. He is about to announce dates with Steve Harris that will follow the IRON MAIDEN 50th ANNIVERSARY European tour in the summer of 2025.

AWAKE is an audio/visual experience with flavours of Pink Floyd, Genesis, Bowie and much more, although all totally original music.

Here is an EPK and Sizzle Reel to give you an idea of the show:

The full headline show is about 1 hour 40 mins (plus encores), but there are a number of different variations of AWAKE, including a 55 min show that Tony has been presenting when opening for Steve Harris.

It's totally a one man show; Tony plays electric guitar, acoustic and piano through the show (and sings, of course). The entire performance is accompanied with video which is what helps to create a truly immersive experience.

AWAKE only runs 8 channels of audio in total.

AWAKE can work on any level - here is a song from Faro Moto Feste in 2024 with 30,000+ in the audience: <https://youtu.be/WjBBPzTrJA8?si=0r7mUrHIMHS9-a1v>
